14th February 2019

Dear Parent / Carer,

GCSE Computer Science - Revision Sessions

Your child is now in the final stages of their Computer Science 9-1 course.

To help your child prepare for the examinations in May, they have been provided with a revision guide and a number of activities to complete outside of lessons. Each week they are receiving homework to complete certain areas of the specification, the homework schedule is included in this letter. In addition to this, students have access to an online platform (www.revision.computing.outwood.com) where they can complete a wide range of questions to help their recall of key content.

The department will be running after-school revision sessions (every Friday) on all topic areas over the coming weeks to ensure that your child is fully prepared for their examination. A schedule of these sessions is attached to this letter. If students are having problems with a particular aspect of a topic, please encourage your child to come to as many of these sessions as possible.

Should you require any further information with regards to your child's progress on Computer Science, please do not hesitate to contact me at g.shann@ripon.outwood.com.

Thank you for your continued support.

Yours faithfully,

Guga Shann
Acting Head of Business and IT
